Caleb Green

Charlotte, NC | 704-706-4357 | calebrobertgreen@gmail.com | cgree147.github.io | linkedin.com/in/calebrobertgreen | kaggle.com/crgreen01

Professional Profile

Information Systems graduate with a 3.9 GPA and a foundational technical background in IT Audit, GRC, and Security Frameworks (NIST CSF, SOC 2, GDPR). Proven expertise in leveraging SQL, Python, and R for rigorous data integrity audits, anomaly detection, and continuous monitoring. Committed to bridging the gap between technical security controls and enterprise risk management, with a specific focus on Cloud Data Governance and automated compliance reporting.

Education

University of North Carolina at Charlotte | Charlotte, NC *Dec 2025*
Bachelor of Science in Information Systems | GPA: 3.9 / 4.0

Certifications

Google Data Analytics Professional Certificate | Google Cybersecurity Professional Certificate | IBM Data, IT & Cybersecurity Fundamentals | CompTIA Security+ (Candidate - Expected May 2026)

Technical Skills

- **Compliance & Frameworks:** NIST Cybersecurity Framework (CSF), SOC 2 (Types 1 & 2), GDPR, PCI DSS, ISO 27001, IT General Controls (ITGC), Internal Audit Methodology.
- **Security & Cloud Governance:** AWS (S3, RDS), VPC Security Groups, IAM (Identity & Access Management), Least Privilege Enforcement, Incident Response Lifecycle.
- **Data Auditing Tools:** SQL (Advanced), Python (Pandas, NumPy, SQLAlchemy), PostgreSQL, Power BI, Tableau, Data Dictionary Development, Metadata Management.
- **Systems:** Linux (Command Line), Firewall Configuration, IDS/IPS.

Project Experience

Automated Cloud Data Pipeline & Retail Analytics */ AWS, Python, SQL*

- Architected a multi-stage ETL pipeline to automate the extraction of retail datasets from AWS S3 into a centralized RDS warehouse, enforcing data governance and security at each stage.
- Developed automated Python validation scripts to identify and remediate data inconsistencies, ensuring 100% accuracy for downstream financial and compliance reporting.
- Implemented technical controls by configuring AWS Security Groups and VPC inbound rules to enforce Least-Privilege access for remote database connectivity.

Internal IT Audit & Compliance Assessment */ Botium Toys Simulation*

- Conducted comprehensive audit of 14+ internal IT controls to identify security gaps and ensure alignment with SOC 2, GDPR, and PCI DSS standards.
- Evaluated technical controls including Encryption, Separation of Duties (SoD), and Disaster Recovery Plans, producing formal remediation roadmap for stakeholders.
- Developed audit matrix to verify confidentiality and integrity of Personally Identifiable Information (PII) and payment data.

Incident Response & Threat Mitigation */ NIST CSF Framework*

- Analyzed simulated DDoS (ICMP Flood) attack and executed end-to-end response following NIST Cybersecurity Framework (CSF).
- Identified 100% network disruption; implemented firewall rate-limiting rules and IDS/IPS filters to mitigate incoming malicious traffic.
- Configured source IP verification to identify spoofed packets and led recovery efforts to restore critical system services.

Professional Experience

Simulated Data Analyst Intern | TDS Telecommunications LLC (UNCC) *May 2025 – July 2025*

- Delivered 10+ SQL-based analytical reports that enabled stakeholders to make risk-informed operational decisions.
- Co-developed executive dashboards using Google Analytics to monitor user engagement and identify potential system performance issues.

Instructional Assistant | UNC Charlotte *Jan 2024 – Dec 2024*

- Mentored 50+ students in programming logic and database management, providing code reviews focused on security best practices and efficiency.
